

## My priorities are your priorities

I believe in Unity.

I believe in moving forward together.

Let's work together for today and for our future generations.

Let's continue to work on building a strong sustainable First Nation.

One of my priorities, is to help seek funds and deliver adequate programs and services to all citizens, and especially to seek funds for housing and infrastructure. This then creates training and employment opportunities.

I have the support of family and friends and trust I have the support from you.

*In Unity, Mussi for your support*

Charlie**

*Selkirk First Nation*

*Crow Councillor*

**VOTE Teddy Charlie**

## My name is Teddy Charlie, a member of the Crow clan.

My Grandparents are the Late Stanley and Kitty Jonathon, I was born and raised in Carmacks by my grandparents, they taught me the Northern Tutchone traditional ways and values of life. At a young age I was taught my traditional ways to live off the land, how to hunt, trap, fish and survival skills. My grandparents knew the importance of education, making them proud, I later graduated from the school in Carmacks, Yukon.

I later moved to Pelly Crossing in 1986, where I started my family. As a father, I am now doing what I can to pass down the skills taught to me, teaching the importance of getting their education and to gain the knowledge of living a traditional life style at the same time. I want to ensure this knowledge is passed down to my 3 young grandchildren as well. Knowing it's my duty to help assist with building their foundation.

### My Community involvement

Once moving to Pelly in 1986, I developed log building skills, then became a carpenter for SFN. Like many, I then switched careers, finding my interest in Economic Development. I worked alongside a great team, the Late Greg Sims and Alex Morrison, seeking funds for community improvements, which includes the baseball park, Link building, curling rink, skating rink, and local store. Sport and Recreation became one of my passions, where I kept busy volunteering for many years.

### Currently

I am currently employed with SFN, working with a team to assist with On the Land Programs, teaching the traditional skills that I was taught, and passing this on to the youth.

I am now ready to begin my Journey to be open, fair and accountable, and to learn and contribute my skills as a member of Council.

### Past Selkirk First Nation Council

I was Elected as **Crow Councillor**, 1994-2001

During this time, I became familiar with the FTA negotiations, Final Agreement and Self-government Agreement, the Constitution, Administrative functions, Policies, Financial matters, etc...

During the signing of the July 1997 SFN Agreements, I am pleased to say I was a part of the team.
