CHIEF SELKIRK FIRST NATION

A TIME FOR CHANGE and to RESTORE TRUST

LEADERSHIP

I want to be Chief to see our citizen's trust restored in government and change the direction we are headed. I started my political work in my twenties as the youngest Councilor in Yukon and those years gave me the experience, skill, and knowledge to be a Chief. Prior to that my work as Acting Director of Land Claims was instrumental in preparing the family caucus for negotiations.

We need a better definition of the relationship between the Council and governing institutions with citizens involved in a participatory government. I believe we need to involve more citizens in decision-making and determine priorities together. We need to build transparency.

I have the passion and willingness to learn, learn from past mistakes and the strength to move on and keep looking for solutions for our problems, to make a positive difference in the lives of our people.

ACTION PLAN

Build a healthy community and government by strengthening our people and improving the quality of life.

TOGETHER ON FOUR PATHWAYS

OUR EDUCATION

Invest in the future of our youths by providing Early Childhood Education Programs and a good education for ALL our youth. Help families create a stable home life. Create an Eliza VanBibber School Partnership,

OUR HEALTH & HOUSING

Improve overall health conditions by Increasing and improve housing stock. Bring in mobile treatment and health care workers. Improve health programs in our community to protect our elderly and vulnerable. Develop emergency medical response procedures for incidents of violence involving youth.

OUR CULTURE & HERTIAGE

Protect our basic rights by preserving our languages and culture. Create safer communities by reducing crime with employment programs to reduce poverty. Provide more supports for programs for low income, disabled and elderly. Safe work places are a priority.

OUR ECONOMIC FUTURE

Manage our resources as we did in the past using sustainable practices to ensure our resources are there for future generations. Invest in Pelly Crossing. Develop food security by supporting agriculture and other local business enterprises. Provide traditional camps to teach youth hunting, fishing and trapping.

COMMITMENT

We will establish a representative group of citizens within the first 45 days to create a planning committee for the purpose of defining our , priorities and directing our actions.

OUR CULTURE

Improving the way our people live depends on how well we protect our culture, values and traditions. These things will influence the way our people live in the future.

The most important issue, I feel, is that what is at stake is, we are slowly losing our rights.

Lack of consultation and a few loud voices is not the way to create our laws. Policies cannot come forward with no prior information.

Citizens have a right to know what their government is doing. We need to help our youth find their voice. We need to listen to those that are sometimes forgotten.

OUR FUTURE

We must reduce the gap between the rich and poor by ensuring that all people can access the same benefits. Our people need supports to develop small businesses. We need to ensure there is a vibrant economic community in Pelly Crossing.

Our citizens and community members need support to assume more leadership positions in our government offices. We have many capable citizens who can do the work and they and their families are invested in the future of our community and our nation.
