

**VOTE**

**DARCIE PROFEIT**  
for **WOLF COUNCILLOR**

**STEADY.  
INFORMED.  
BUILDING FOR  
TOMORROW.**

I have travelled extensively and lived internationally before returning home so my son could grow up with a connection to the land surrounded by his family & culture. Experiencing the wider world deepened my appreciation for how rare and wonderful our Self-Government truly is. It's a monumental achievement secured by our Elders, and the motivates that drives me to serve as a careful steward of the Final Agreements that safeguard our future.

For over 15 years, I worked in senior television production roles, most recently as Co-Executive Producer of a Discovery Channel series, I led large teams and managed complex operations. I now bring that same strategic thinking, accountability, and problem-solving into my work for our Nation.

As First Chair of the Eliza VanBibber School Community Committee, and a volunteer with the Scene Safety Response Unit, I remain actively involved in strengthening education and collaboration within our community.

**CORE BELIEF**

**Citizen Pathways to Success → Collective Capacity → A Nation Strong in Sovereignty**

A Nations Sovereignty is sustained through the strength of **all its people**. When every Citizen has a clear pathway toward stability, purpose, and success, our collective strength grows. As we move through all stages of life, whether navigating recovery, pursuing an education, seeking career & business growth, raising a family, or becoming an Elder, our path to success is paved

by clear direction, continuity in support, and strategic planning for the future. Our Youth will inherit a rapidly changing world. Strengthening the foundations built by our Elders will ensure our Youth inherit a Nation that is stable, prepared, and confident in its future. That means grounding Youth in our culture while equipping them with future-ready skills.

**GUIDED BY CARING, SHARING,  
RESPECT, & TEACHING**

I am committed to informed decision-making grounded in our Constitution and Final Agreements, and to lifelong learning so I can continue to grow in understanding, listen carefully, and approach this work with care, accountability, and respect — today and into the future.

## PRIORITY: CITIZEN PATHWAYS TO SUCCESS.

The success of each Citizen collectively strengthens our Nation. Growth & Success matter at every stage of life, and should be grounded in safety, opportunity, and continuity for **reduced gaps** in support for lasting success.

- **Clearly Defined Next Steps** – Strategic coordination between programs, training, & education with a clear path forward for lasting outcomes.
- **Skills Development in All Phases of Growth** - from 'adulthood', to practical life skills, financial literacy, professional mentorships, and retirement.
- **Employment Growth** – Meaningful work programs that build confidence, employability, and long-term independence. Opportunities for career growth or succession within our administration.
- **Safety** - Community safety is foundational to Citizen success. Decisive action against illicit activity protects those working toward stability and opportunity.

- **Youth & Elder Engagement** – Regular and meaningful engagement across generations ensure lived knowledge informs future leaders & traditional knowledge guides us forward.
- **Accessible Government** – Improve access to plain-language summaries of documents so all Citizens can confidently participate in Government.
- **Clear Communication** – Strengthen consistent communication from the administration & Council, and between governing bodies.
- **Honour Our Constitution** – Hold it as a living framework that guides fair & responsible decision-making free of bias and discrimination.

## PRIORITY: INTERGENERATIONAL GOVERNANCE & CIVIC STRENGTH

Support Civic strength through **intergenerational exchange**, active participation in our governing processes, and governance that remains true to our Constitution.

## PRIORITY: A FUTURE FOCUSED APPROACH TO SOVEREIGNTY

Sustaining sovereignty requires **adaptability & long-term planning**. Shifts in the economy, environment, & emerging technologies are reshaping what is required for our Youth to thrive and how our Citizens prepare for a future in which our Nation remains strong & resilient.

- **Future-Ready Training** - Align workforce development with emerging technologies and evolving industries such as Selkirk Copper.
- **Resource Development** - strategic resource development with responsible land stewardship to support long-term resilience.
- **Connection to the Land** - Anchor our future in land-based skills & traditional knowledge, to strengthen identity, purpose, and the resilience of our Nation through changing times.
- **Planning for What we Cannot Control** - Informed and responsible use of emerging technologies, increased food security, developing environmental preparedness (cold snaps/heat waves etc.).
