# ABOUT ME

I am Jeremy Harper, son of Ella Harper and Freddy Johnson, and grandson of Fred Harper and Flora Moses Harper. I carry my family's name with pride and deep respect. Pelly Crossing is my home — the land where my ancestors have lived, traveled, and cared for our people for countless generations. As I take this new step forward, I am deeply grateful for the love and support of my wonderful partner, Jasmina Randhawa, and I am truly thankful to have her in my life as I begin this journey.

As a proud Selkirk First Nation citizen from Pelly Crossing, I was raised to believe that leadership is not a title - it is a responsibility to our people, our land, and our children. I am someone who believes in the strength of community, the importance of service, and the value of showing up for each other. I was raised and taught the traditional way of life by my family and elders, to follow our values and traditional code of conduct of respect, caring, sharing and teaching

Our ancestors fought for our rights and self-governance; today, it is our duty to honor that foundation. My vision is to bridge our history with new opportunities - strengthening supports for our Elders, empowering our youth, and stewarding our resources for generations to come.

# MY PRIORITIES

- Strengthening education and training for citizens and staff.
- Increase support for community safety programs.
- Build strong partnerships with other Self-Governing First Nations, Yukon Government, and municipalities.
- Expand housing to meet the needs of Pelly Crossing's growing and changing population.
- Preserve and promote Traditional Knowledge for future generations.

# MY PRIORITIES

- Support and revitalize our Northern Tutchone language.
- Secure additional funding to strengthen programs and services for citizens.
- Improve access to healthcare support within our community.
- Upgrade community infrastructure, including the airport and public spaces.
- Increase community engagement with citizens and Elders, both locally and away from home.
- Expand land-based wellness initiatives and access to traditional lands.
- Enhance community signage to reflect pride in our territory and identity.
- Support the development of an Elders facility so our Elders can age comfortably at home.
