

# VOTE

## David Ernest Norman Silas for Wolf Council

*I have lived in our community and confronted its challenges directly. I have real, lived experience and understand the issues our youth are facing today. Together, we will work towards ensuring they feel safe, confident, and successful in their educational goals.*

*Vote for ambition and a commitment to our traditional values of caring, sharing, teaching and respect.*

## ELECTION MANDATE

### 01 Supporting Selkirk Citizens Where They Live

A significant number of Selkirk First Nation citizens reside outside of Pelly Crossing. Establishing a government office in Whitehorse would improve access to governance services and strengthen political participation and reduce disengagement among off-settlement citizens.

### 02 Support for the success and prosperity of the Selkirk Copper/Minto Mine

The SFN has a long history of material benefits and lessons learned from mining. We have previously received financial support through royalty payments tied to Minto's production, demonstrating that the mine can generate its own revenue when structured effectively. I will ensure that children who were not included in the initial royalty benefits will be incorporated into any new royalty structure moving forward, providing them with the same equal opportunities in life as those who came before them.

### 03 Implementation of the Selkirk First Nation Administration of Justice Act

I wish to acknowledge the significant contributions and efforts of our Elders and Citizens over the years in establishing a framework for the SFN Justice Act. This framework is designed to support our Selkirk citizens within the justice system, align with the Mental Health Act, and, most importantly, safeguard the welfare of Selkirk children in matters of Child Protection.

### 04 Northern Tutchone Regional Land Use Plan

I will commence dialogues with our neighboring Northern Tutchone (NT) nations to facilitate the implementation of Chapter 11 of our collective Final Agreements. This initiative aims to establish a unified approach among the NT nations that is aligned with our Dan Ki and Dooli laws, which serve to connect our communities.

**Support the change you want to see in our community and governance**
