

VOTE

DARCIE PROFEIT
for **WOLF COUNCILLOR**

I have travelled extensively and lived internationally before returning home so my son could grow up with a connection to the land surrounded by his family & culture. Experiencing the wider world deepened my appreciation for how rare and wonderful our Self-Government truly is. It's a monumental achievement secured by our Elders, and the motivation that drives me to serve as a careful steward of the Final Agreements that safeguard our future.

For over 15 years, I worked in senior television production roles, most recently as Co-Executive Producer of a Discovery Channel series, I led large teams and managed complex operations. I now bring that same strategic thinking, accountability, and problem-solving into my work for our Nation.

As First Chair of the Eliza VanBibber School Community Committee, and a volunteer with the Scene Safety Response Unit, I remain actively involved in strengthening education and collaboration within our community.

**STEADY.
INFORMED.
BUILDING FOR
TOMORROW.**

CORE BELIEF

Citizen Pathways to Success → Collective Capacity → A Nation Strong in Sovereignty

A Nations Sovereignty is sustained through the strength of **all its people**. When every Citizen has a clear pathway toward stability, purpose, and success, our collective strength grows.

As we move through all stages of life, whether navigating recovery, pursuing an education, seeking career & business growth, raising a family, or becoming an Elder, our path to success is paved

by clear direction, continuity in support, and strategic planning for the future.

Our Youth will inherit a rapidly changing world. Strengthening the foundations built by our Elders will ensure our Youth inherit a Nation that is stable, prepared, and confident in its future. That means grounding Youth in our culture while equipping them with future-ready skills.

**GUIDED BY CARING, SHARING,
RESPECT, & TEACHING**

I am committed to informed decision-making grounded in our Constitution and Final Agreements, and to lifelong learning so I can continue to grow in understanding, listen carefully, and approach this work with care, accountability, and respect — today and into the future.
