## MILLY JOHNSON

**AS YOUR SELKIRK FIRST NATION**  
**Crow Councilor**

### **YOUR VOICE IS IMPORTANT**

**Representing you with a strong voice, in a fair and respectful manner. Using my wealth of knowledge and leadership experience**

I have decided to put my name forward as I see the need to step up and support the First Nation, with using my years of experience, skills, and compassion to help make SFN thrive in all areas. Ensuring we move the community forward in a united way. I am a long-term resident of Pelly Crossing. I live a healthy lifestyle. I practice my traditional ways. I have been taught my way of living and doing by our elders. I am dedicated and invested to supporting all citizens. Treating all equally and respectfully is important to me. I know what it takes, as I have served the community in various capacities and roles for 35 years. Health and Wellness is my background. I have been a part of many changes over time that gives me good understanding of the past, current and future of SFN. I will use my best practices to meet the needs of the community and the people as we move forward in unity. I take this role as a privilege and honor to help lead our nation. *'I need you to support me to take a stand and be your voice'. 'The future of SFN matters'*
